

# States of *Being-ness/Our Essence*

## "Who Am I? and Why Am I Here?"

Carol R. Kepler M.E.I.

Why are we here? It's an age-old question and we're still searching for answers for it. We know that it has a lot to do with Soul's Purpose, the Plan we wrote before we got here.

The Being-ness states give us information to help us better understand ourselves and others, rather like a guide throughout our life's journey. Many of us are here "on assignment", not a volunteer position, with one exception, **Master!**

Much of this information came from Dr. Sue Solomon, a former ER doctor and a Wise One.

1. **Astrological:** based on date of birth
2. **Sensitive Constitution:** (10% of planet), intune with the nature of their body, proactive with their health, open to natural alternatives  
**Strong Constitution:** (90% of world's population), Not as intune with their body, often ignoring signs of illness. More comfortable with medical solutions
3. **Special Child of the Universe:**
  - **Indigo**— gifted, intuitive, integrity, life passions, leader, health oriented
  - **Crystal Child**— heart for the weak and helpless
  - **Star Seed/Star Child**—intuitive, know things they don't "know"  
reads energy fields
4. **Status: A person's assignment is based on his Soul's imprint at time of birth: Those with \* are on assignment.**

**"38" Master** - has earned his wings, but has volunteered back in at this time in history to help heal the planet.

**"37" Genius\*** - born with giftedness beyond any ordinary and often in multiple areas: technical, musical, writing, inventing, art, acting, physical prowess, culinary, business, the Renaissance man/woman.

**"36" Wise One\*** - knows things intuitively that he doesn't "know". Can pull information from the *other side*. (On assignment)

**"30" Authentic Angel\*** - has a Soul's Purpose so grand or so challenging that he needed to spend extra time with the Angels before they came across. Often has a Wise One "bleed-through"/a "knowingness" (On assignment)

**"30" Earth Angel** - there are many more Earth Angels than any other category, good people with no specific assignment this time around

**"17" Support System\*** - provides the support that any of those above need to successfully carry out their assignment. Seldom get the recognition they deserve! (On assignment)

**"10" - Public Service and Entertainment Industries** - many police officers, public transportation, and many government workers, athletes, waiters and store clerks: Halle Berry, Kirstie Alley, Kirk Douglas, comic Jack Benny. (Some have assignments in the above areas)

- **"0" - "Pretenders" are people who *came in with a Soul's purpose but lost it* due to greed/power or just a "wrong-doing" as simple as backing off from something they could or should have said or done—and didn't. Reversal possible through acknowledging mistake, asking forgiveness and making amends.**

Important: Status can be lost at any time during a lifetime. Reversible only by acknowledging the mistake, asking forgiveness and making amends. Status and the Soul's Plan can also be aborted by: damage to the brain's auric shield (psychic sheath)

- body or emotional trauma
- toxins (including street drugs and medications)
- chaotic electric overload/EMR's and the new level of radiation from the sun

### **Notes on Being-ness/your essence**
